Dear Paul,

My disgreement with your conclusions, not the idea of speculation, us that they are not supported by fact where fact is available but grow from speculation that is invalid.

I have no doubt of blackmail, official, and believe I know when it got tight. Epiltically, I have so stated in print.

Where we disgaree is, for example, on his fear of his wife's deportation and its influence on him, in your assumption that his "old associates" didn't know he was in D, in your speculation which is based upon nothing and is necessary to your preconcpetion, that he knew and was conciliitery, that he reconsitered, etc. Mine is simpler and I think warrented by what we dk know and can believe.

Sorry, no time. Going to N.O. tomorrow.

Wife thanks you for kind note.

Sincerely,
